6. Safety and Suitability of Premises, Environment and Equipment

6.1 Health and Safety Policy

Designated Health and Safety Officer is: Sue Gauntlett

Aim

Our provision is a suitable, clean and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements for health and safety and fulfil the criteria for meeting the Early Years Foundation Stage Safeguarding and Welfare Requirements.

Objectives

- We recognise that we have a corporate responsibility and duty of care towards those who work in and receive a service from our provision. Individual staff and service users also have responsibility for ensuring their own safety as well as that of others. Adherence to policies and procedures and risk assessment is the key means through which this is achieved.
- Insurance is in place (including public liability) and an up-to-date certificate is always displayed.
- Risk assessments are carried out to ensure the safety of children, staff, parents, and visitors. Legislation requires all those individuals in the given workplace to be responsible for the health and safety of premises, equipment and working practices.
- Smoking is not allowed on the premises, both indoors and outdoors. Staff do not smoke in their work clothes and are requested not to smoke within at least one hour of working with children. The use of electronic cigarettes is not allowed on the premises.
- Staff must not be under the influence of alcohol or any other substance which may affect their ability to care for children. If staff are taking medication that they believe may impair them, they need to seek further medical advice and only work directly with children if that advice is that the medication is unlikely to impair their ability to look after children. The setting manager must be informed.

- Alcohol must not be bought onto the premises for consumption.
- A risk assessment is carried out for each area and the procedure is modified according to needs identified for the specific environment.
- A daily risk assessment is carried out before opening.
- Risk assessments are monitored and reviewed by those responsible for health and safety.

6.2 Maintaining children's safety and security on premises

Policy statement

St Mary's Nursery, Camberley maintains the highest possible security of our premises to ensure that each child is safely cared for during their time with us.

Procedures

Children's personal safety

- We ensure all employed staff have been checked for criminal records via an enhanced disclosure with children's barred list check through the Disclosure and Barring Service.
- Adults do not normally supervise children on their own.
- All children are supervised by adults at all times.
- Whenever children are on the premises at least two adults are present.
- We carry out risk assessments to ensure children are not made vulnerable within any part of our premises, nor by any activity.

Security

- Systems are in place for the safe arrival and departure of children.
- The times of the children's arrivals and departures are recorded.
- The arrival and departure times of adults – staff, volunteers and visitors - are recorded.
- Our systems prevent unauthorised access to our premises.
- Our systems prevent children from leaving our premises unnoticed.
- All visitors are checked before entering and sign in.
- Our staff check the identity of any person who is not known before they enter the premises.
- We keep doors and gates locked shut at all times.
- The personal possessions of staff and volunteers are securely stored during sessions.

6.3 Supervision of Children on Outings and Visits

Planning and preparation

- Outings are limited to the local park where St Mary's Nursery is based and the church which backs on to the park. No large outings, zoo visits or trips to other external venues are undertaken.
- Visits to the local park and church support children's learning, development, physical activity and exploration of the local environment.
- Children only visit these locations when staff are satisfied that it is safe and appropriate to do so.
- Parents are informed about the nursery's use of the local park and church, and appropriate parental consent is obtained.
- A minimum of two staff accompany children when leaving the nursery premises, in accordance with the setting's staffing arrangements and risk assessment.
- Children are specifically allocated to members of staff, who are responsible for supervising their designated children throughout the visit.
- Parents do not accompany children on visits. All supervision and safeguarding responsibilities remain with the nursery staff.
- The designated lead practitioner oversees the visit and ensures the safety and wellbeing of all children.
- Staff take a mobile phone belonging to the setting and a small first aid kit on each visit.
- As the park and church are within a five-minute walk of the nursery, staff do not routinely take spare clothes, nappies or plastic cups. Any additional items required for individual children will be taken as necessary.
- Parents are asked to apply sun cream to their children in the morning. Staff follow the setting's sun safety procedures as required.
- Children wear high-visibility vests when visiting the park or church, where appropriate and in accordance with the risk assessment.
- Staff ensure they have emergency contact details and any medication or essential equipment required by the children.

- Staff remain vigilant and ensure children are supervised at all times while walking to, from and around the park and church.

Risk assessment

- A risk assessment is in place for the local park and the church before children visit these locations. Risk assessments are reviewed regularly and updated whenever necessary.
- Staff familiarise themselves with the relevant risk assessments and follow the control measures identified to keep children safe.
- Any changes to the environment, weather conditions, access arrangements or other circumstances are considered before and during each visit.
- Children with specific needs have an individual risk assessment where necessary to ensure their safety and enable them to participate appropriately.

6.4 Risk assessments

Risk assessments are carried out to ensure the safety of children, staff, parents and visitors. Legislation requires all individuals in the workplace to be responsible for the health and safety of premises, equipment and working practices. We have a 'corporate responsibility' towards a 'duty of care' for those who work in and receive a service from our provision. Individuals also have responsibility for ensuring their own and others safety.

- A generic risk assessment form is completed for each area of work, and the areas of the building that are identified in these procedures
- A prioritised place risk assessment is completed for offering prioritised places during a national pandemic. A separate form is completed for each child who is prioritised because they are vulnerable, or meet any other criteria stipulated by the Government at the time. Risk assessment is also completed for each individual group/room as appropriate. If the risk assessment indicates a high risk if the place is offered, that cannot be minimised, the offer of the place may be withdrawn at the discretion of the setting manager.

Risk assessment means: *Taking note of aspects of your workplace and activities that that could cause harm, either to yourself or to others, and deciding what needs to be done to prevent that harm, making sure this is adhered to and is updated when necessary*.

The law does not require that all risk be eliminated, but that 'reasonable precaution' is taken. This is particularly important when balancing the need for children to be able to take appropriate risks through physically challenging play. Children need the opportunity to work out what is not safe and what they should do when faced with a risk.

Daily risk assessments

- Daily risk assessments are conducted when setting up for the day prior to children arriving or closing in the evening. Sometimes a safety sweep will identify a risk that requires a formal risk assessment on form. For example, if a window latch is becoming stiff and a practitioner has to stand on a chair in order to reach it to ensure it has closed properly.

Health and safety risk assessments

Health and safety risk assessments inform procedures. Staff should be involved in reviewing risk assessments and procedures, as they are the ones with first-hand knowledge as to whether the control measures are effective and they can give an informed view to help update procedures accordingly.

The setting manager undertakes training and ensures staff have adequate training in health and safety matters. The setting managers also ensures that checks/work to premises are carried out and records are kept.

- Electricity safety by a qualified electrician.
- Fire precautions to check that all fire-fighting equipment and alarms are in working order.
- Hot air heating systems/air conditioning systems cleaned and checked.
- Deep cleans are carried out.

The setting manager ensures that staff members carry out risk assessments that include relevant aspects of fire safety, food safety, in each of the following areas of the premises:

- Entrance and exits.
- Outdoor areas.
- Passageways, stairways and connecting areas.
- Main room.
- Main kitchen.
- Rooms used by others or for other purposes.

The setting manager ensures staff members carry out risk assessment for off-site activities, such as children's outings (including use of public transport), including:

other duties off-site such as attending meetings, banking etc

- The setting manager ensures staff members carry out risk assessment for work practice including:
- the intimate care of young children and older children
- arrivals and departures
- children with allergies and special dietary needs or preferences
- serving food
- cooking activities with children
- supervising outdoor play and indoor/outdoor climbing equipment
- assessment, use and storage of equipment for disabled children
- visitors to the setting who are bringing equipment or animals as part of children's learning experiences, for example 'fire engines'
- following any incidents involving threats against staff or volunteers
- following any accident or incident involving staff or children

The setting manager liaises with Crime Prevention Officers as appropriate to ensure security arrangements for premises and personnel are appropriate.

6.5 Fire Safety and Emergency Evacuation

Designated Fire Marshalls are: Sue Gauntlett

Aim

Our provision is a suitable, clean, and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements about fire safety and fulfil the criteria for meeting the relevant Early Years Foundation Stage Safeguarding and Welfare Requirements.

Objectives

- We recognise that we have a corporate responsibility and a duty of care for those who work in and receive a service from our provision, but individual employees and service users also have a responsibility to ensure their own safety as well as that of others. Risk assessment is the key means through which this is achieved.
- A fire safety risk assessment is carried out by a competent person in accordance with the Regulatory Reform (Fire Safety) Order 2005.
- A Fire Log is completed and regularly updated.
- Necessary equipment is in place to promote fire safety.

Legal references

Regulatory Reform (Fire Safety) Order 2025)

Electricity at Work Regulations (2020)

Fire safety procedures

- The setting manager has access to, or a copy of, the fire safety procedures specific to the building and ensure they align with these procedures. The setting manager makes reasonable adjustments as required to ensure the two documents do not contradict each other.

Fire safety risk assessment

A fire safety risk assessment form is carried out in each area of the setting by a competent person using the five steps to fire safety risk assessment as follows:

1. Identify fire hazards
    - Sources of ignition.
    - Sources of fuel.
    - Sources of oxygen (including oxygen tanks for disabled children).
2. Identify people at risk
    - People in and around the premises.
    - People especially at risk including very young babies, less ambulant disabled children or those using specialised equipment, such as splints, standing frames.
3. Evaluate, remove, reduce and protect from the risk
    - Evaluate the risk of the fire occurring.
    - Evaluate the risk to people from a fire starting on the premises.
    - Remove and reduce the hazards that may cause a fire.
    - Remove and reduce the risks to people from a fire.
4. Record, plan, inform, instruct, train
    - Record significant findings and action taken.
    - Prepare an emergency plan.
    - Inform and instruct relevant people; inform and co-operate with others.

- Provide training.

5. Review

- Keep assessment under review and revise when necessary.

The fire safety risk assessment focuses on the following for each area:

- Electrical plugs, wires, sockets.
- Electrical items.
- Boilers
- Cookers.
- Matches.
- Flammable materials, including furniture, furnishings, paper etc.
- Flammable chemicals (which are also covered in COSHH).
- Means of escape.
- Any other, as identified.

Fire safety precautions include:

- All electrical equipment is checked by a qualified electrician annually.
- Any faulty electrical equipment is taken out of use and recorded as such or condemned (whichever is necessary).
- Water and electrical items do not come into contact; staff do not touch electrical items with wet hands.
- All fire safety equipment is checked annually.
- If matches are used in the kitchen, they are kept in a drawer.
- Oxygen tanks.

Fire Drills

- Fire Drills (to include emergency evacuation procedures and lock down) are held at least termly. Drills are recorded, including:
  - date of drill
  - staff involved and numbers of children
  - how long it took to evacuate
  - any reason for a delay in achieving the target time and how this will be remedied

Fire precautions

- Fire exit signs are the green 'running man' signs and are in place and clearly visible.
- Fire exits by doors are those that show a green light at night.
- Fire doors are not locked during normal working hours.
- Fire evacuation notices are in every room; these are displayed in print large enough to read from a short distance. They say where the assembly point is.
- Fire alarms are in place and tested monthly, and where necessary supplemented with visual warnings.
- Smoke alarms are in place.
- A fire blanket is in kept in the kitchen.
- Fire extinguishers are in place and are appropriate

6.6 Animals and Pets

- Staff will be aware of any allergies or issues individual children may have with any animals/creatures.
- A risk assessment is conducted and considers any hygiene and safety risks posed by the animal or creature.
- Suitable housing for the animal is provided and is regularly cleaned and maintained.
- The correct food is offered at the right times and staff are knowledgeable of the pet's welfare and dietary needs.
- Arrangements are made for weekend and holiday care for the animal/creature.
- There is appropriate pet health care insurance or other contingencies agreed and put in place to pay for veterinary care and the animal is registered with a local vet.
- All vaccinations and health measures such as de-worming are up to date.
- Children are taught correct handling of the pet and are always supervised.
- Children wash their hands after handling the pet and do not have contact with animal faeces, or soiled bedding.
- Members of staff wear single use vinyl/latex free gloves when cleaning/handling soiled bedding.
- Snakes and some other reptiles are not suitable pets for the setting due to infection risks.
- The manager will check with the trustees before introducing a new pet into the setting.

Animals bought in by visitors

- The owner of the animal/creature maintains responsibility for it in the setting.
- The owner carriers out a risk assessment detailing how the animal/creature is to be handled and how any safety or hygiene issues will be addressed.

6. 7 Lock-down Procedures

Most procedures for handling an emergency are focussed on an event happening in the building. However, in some situations you will be advised to stay put (lock-down) rather than evacuate. 'Lock-down' of a building/group of buildings is intended to secure and protect occupants in the proximity of an immediate threat. By controlling movement in an area, emergency services can contain and handle the situation more effectively.

- The setting manager assesses the likelihood of an incident happening based on their location.
- The setting manager will check our police website for advice and guidance.
- Local police contact numbers are clearly displayed for staff to refer to.
- Staff rehearse simple 'age appropriate' actions with the children such as staying low to the floor, keeping quiet and listening to instructions in the same way that fire procedures are practiced. Lock-down must be rehearsed and recorded termly.
- The setting manager is aware of the current terrorist alert level, as available at www.mi5.gov.uk/threat-levels.
- We follow any additional advice issued by the local authority.
- Emergency procedures are reviewed and added to if needed.
- Information about this procedure is shared with parents and all staff are aware of their role during 'lockdown'.
- An email is issued to parents when lockdown is confirmed.

Suggested wording for parent message

Due to an incident we have been advised by the emergency services to secure the premises and stay put until we are given the 'all clear'. Please do not attempt to collect your child or bring your child to nursery until it is safe to do so we will let you know as soon as we have been given permission by the emergency services that it is safe to do so. Please do not call the nursery as we need to keep our telephone lines clear to allow communication with the emergency services.

Lock-down procedures

If an incident happens the setting manager acts quickly to assess the likelihood of immediate danger. In most cases the assumption will be that it is safer to stay put and place the setting into 'lockdown' until the emergency services arrive. As soon as the emergency services arrive at the scene staff comply with their instructions.

During 'lock-down'

- Staff and children stay in their designated areas if it is safe to do so.
- Doors and windows are secured until further instruction is received.
- Curtains and blinds are closed where possible.
- Staff and children stay away from windows and doors.
- Children are encouraged to stay low and keep calm.
- Staff do NOT make non-essential calls on mobile phones or landlines.
- If the fire alarm is activated, staff and children remain in their designated area and await further instructions from emergency services, unless the fire is in their area. In which case, they will move to the next room/area, following usual fire procedures.

The door will not be opened once it has been secured until the manager is officially advised "all clear" or is certain it is emergency services at the door.

During lockdown staff do NOT:

- assemble in large open areas
- call 999 again unless there is immediate concern for their safety, the safety of others, or they feel they have critical information that must be passed on

Following lockdown:

- Staff will cooperate with emergency services to assist in an orderly evacuation.
- Staff will ensure that they have the register and children's details.
- Staff or children who have witnessed an incident will need to tell the police what they saw. The police may require other individuals to remain available for questioning.

- In the event of an incident it is inevitable that parents will want to come to the setting and collect their children immediately. They will be discouraged from doing so, until the emergency services give the 'all clear'. Staff will be always acting on the advice of the emergency services.

Recording and reporting

- The setting manager reports the lockdown to the Chair of Trustees as soon as possible. In some situations, this may not be until after the event.
- A record is completed as soon as possible.

Further guidance

Members of the public should always remain alert to the danger of terrorism and report any suspicious activity to the police on 999 or the anti-terrorist hotline: 0800 789 321.

For non-emergency, call the police on 101.

6.8 Staff personal safety

General

- Members of staff who are in the building early in the morning or late in the evening, ensure that doors and windows are locked.
- Where possible, the last two members of staff in the building leave together after dark and arrange to arrive together in the morning.
- Visitors are allowed access only with prior appointments and once identifications are verified.
- When taking cash to the bank, members of staff are aware of personal safety. The setting manager carries out a risk assessment and develops an agreed procedure appropriate to the setting, staff, and location.
- Staff make a note in the shared diary of meetings they are attending and when they are expected back.
- The setting managers liaises with local police for advice on any issues or concerns.
- If no contact is made after a reasonable amount of time has passed, the contact person rings the police.

Dealing with agitated parents/visitors in the setting

- If a parent or visitor appears to be angry, mentally agitated, or possibly hostile, two members of staff will lead them away from the children to an area less open but will not shut the door behind them.
- If the person is standing, staff will remain standing.
- Staff will try to empathise, for example: 'I can see that you are feeling angry at this time'.
- Staff offer to discuss the issue of concern and show they recognise the concern.
- Staff will ensure that the language they use can be easily understood
- Staff will make it clear that they want to hear issues and seek solutions.

- If the person makes threats and continues to be angry, members of staff make it clear that they will be unable to discuss the issue until the person stops shouting or being abusive, avoiding expressions like ‘calm down’ or ‘be reasonable’.
- If threats continue, members of staff will explain that the police will be called and emphasise the inappropriateness of such behaviour in front of the children.
- After the event, it is recorded in the child’s file together with any decisions made with the parents to rectify the situation.
- Copies of correspondence regarding the incident will be kept in the relevant child’s file.
